

```
#include <iostream>
#include <stdio.h>
#include <math.h>
#include <stdlib.h>
using namespace std;
```

```
int main()
{
    float novac;
    scanf_s("%f", &novac);

    novac = novac - (novac / 5);
    novac = novac - (novac / 5);
    novac = novac - (novac / 5);

    printf("%.2f", novac);
}
```
